Refreshments

Fossil fuel consumption is at the core
of the most pressing issues that
confront people and governments
all over the world.

+ + +

As people of faith,
we have a unique opportunity
to promote sustainable, clean,
socially responsible, and economically
viable solutions to the energy crisis.

Please join the **Green Team**
and **Faiths United for Sustainable Energy**
to learn about how people of faith are already having an
impact and how you can take action that will make a difference.
